

Comment Set D.3: Bill and Sue Farris

Re: The proposed routes for SCE.

We solidly agree and support Senator Sharon Runner's letter of protest to the invasive route #5 which would adversely affect 30 families and their properties. Not only would these families lose by this route choice, but those living ~~under~~ or near the exposed lines would also be negatively affected. They are a health hazard! This route would destroy the 'quiet community' that exists.

D.3-2

When human needs are discarded to avoid transmitting the dirt, the decision is wrong. Therefore, please eliminate route #5 from the list of possibilities.
