→ We are Opposed to the Project! **"Think"**

My family moved to Leona Valley 4 years ago to escape an ever growing Lancaster and the troubles that go along with a poorly managed city. When we did, we assumed that sooner or later those problems would encroach on our small community. Now, this project threatens our way of life, the local wildlife, and one of the last areas of the Antelope Valley with natural vistas and topography. We urge you to use the existing corridor for the project and leave our small but beautiful community as you find it today - unspoiled. We understand the need to progress but please don't leverage your profits with our lives, property, and peace.

*Please print. Your name, address, and comments become public information and may be released to interested parties if requested.
