**Subject:** RE: Embarcadero - Potrero 230kV NTP 1 Potrero Submittal for APM AQ-2- Minimize Construction Exhaust Emissions

Hello Jody,

On behalf of PG&E, attached are the responses to your comments on AQ-2. We added back in the missing language from the APM and related MM, and incorporated additional language to respond to the received comments. Attached are both a track changes version with Brewster's comments and our responses, and a clean version marked Rev1. This submittal fulfills the requirements of APM AQ-2, Minimize Construction Exhaust Emissions.

Thank you,  
Lynne Hosley
