

Final Environmental Impact Report – Errata

Introduction

The California Public Utilities Commission (CPUC) published the Final Environmental Impact Report (EIR) for the Pacific Gas and Electric Company (PG&E) Moraga to Oakland X 115 Kilovolt (kV) Rebuild Project on January 14, 2026. Following publication but before certification of the EIR, minor errors were identified requiring correction, as shown below.

This Final EIR errata document merely updates existing text in the Final EIR to match the discussion in other EIR sections and appendices, including the Executive Summary, Section 3.2 (Aesthetics), Section 3.4 (Biological Resources), Section 3.5 (Cultural Resources), Section 3.9 (Hazards, Hazardous Materials, and Public Safety), Section 3.14 (Recreation), and Section 3.17 (Utilities and Service Systems). This erratum corrects typos and does not raise important new issues about significant effects on the environment, and thus, such changes are not significant as the term is used in Section 15088.5(b) of the California Environmental Quality Act (CEQA) Guidelines.

Errata revisions are indicated with ~~strikeout~~ for deletions of text, and in underline for new text.

Errata Items

See Final EIR Executive Summary Section ES.10 (Summary of Impact), page ES-16:

Impact AES-4: Conflict with applicable zoning and other regulations governing scenic quality.

Construction and O&M:	Less Than Significant with Mitigation
O&M:	<u>Less Than Significant</u>
Mitigation Measure:	MM AES-3a: Screen construction activities from view.

See Final EIR Executive Summary Section ES.10 (Summary of Impact), page ES-18:

Impact BIO-1: Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Wildlife or U.S. Fish and Wildlife Service.

Construction:	<u>Less Than Significant with Mitigation</u>
Overhead Power Line Rebuild:	<u>Less Than Significant with Mitigation</u>
Overhead Power Line Removal:	<u>Less Than Significant with Mitigation</u>
Underground Power Line:	<u>Less Than Significant</u>
O&M:	Less Than Significant with Mitigation

See Final EIR Executive Summary Section ES.10 (Summary of Impact), page ES-19:

Impact BIO-7: Create a substantial collision or electrocution risk for birds or bats.

Construction:	<u>No Impact</u>
Overhead Power Line Rebuild:	<u>Less Than Significant</u>
Overhead Power Line Removal:	<u>No Impact</u>
Underground Power Line:	<u>No Impact</u>
O&M:	Less Than Significant with Mitigation

See Final EIR Executive Summary Section ES.10 (Summary of Impact), page ES-19:

Impact CUL-3: Disturb human remains, including those interred outside of formal cemeteries.

<i>Construction:</i>	Less Than Significant with Mitigation
<i>O&M:</i>	No Impact

See Final EIR Executive Summary Section ES.10 (Summary of Impact), page ES-22:

Impact HH-6: Create a significant hazard to the public or environment through the transport of heavy materials using helicopters.

<i>Construction:</i>	
<i>Overhead Transmission-Power Line Rebuild:</i>	Less Than Significant with Mitigation
<i>Overhead Transmission-Power Line Removal:</i>	No Impact
<i>Underground Transmission-Power Line:</i>	No Impact
<i>O&M:</i>	
<i>Overhead Transmission-Power Line Rebuild:</i>	Less Than Significant
<i><u>Overhead Power Line Removal:</u></i>	<u>No Impact</u>
<i>Underground Transmission-Power Line:</i>	No Impact
<i>Mitigation Measure:</i>	MM HH-6a: Prepare and Implement a Helicopter Safety Plan

See Final EIR Executive Summary Section ES.10 (Summary of Impact), page ES-25:

Recreation

<u>Applicant Proposed Measures:</u>	APM REC-1	Coordination with Park and Open Space Management and Signage [<i>Superseded by MM REC-3a</i>]
	APM NOI-1	General Construction Noise Management [<i>Superseded by MM N-1a</i>]

See Final EIR Executive Summary Section ES.10 (Summary of Impact), page ES-29:

Impact US-4: Increase the rate of corrosion in nearby pipelines

<i>Construction:</i>	No Impact
<i>O&M:</i>	Less Than Significant
<i><u>Overhead Power Line Rebuild:</u></i>	<u>Less Than Significant</u>
<i><u>Overhead Power Line Removal:</u></i>	<u>No Impact</u>
<i><u>Underground Power Line:</u></i>	<u>Less Than Significant</u>
