Mr. Kevin O'Beirne  
San Diego Gas & Electric Company  
8830 Century Park Court – CP32D  
San Diego, CA. 92123**Re: Data Request #13 for the SDG&E Sunrise Powerlink Transmission Project,  
Application No. 06-08-010**

Dear Mr. O'Beirne:

The California Public Utilities Commission's (CPUC) Energy Division has reviewed the documents and materials that SDG&E has provided including the Proponent's Environmental Assessment (dated August 4, 2006), the Application Supplement Materials (dated September 1, 2006), and SDG&E's Response to Data Requests No. 1 through 12. During the analysis of the aforementioned materials and in our preparation of EIR/EIS sections, we have identified additional items that require information from SDG&E. Additional data requests may be necessary to address alternatives and other CEQA/NEPA topics. This letter constitutes Data Request No. 13.

We would appreciate your prompt response to this request, which will allow us to maintain our current EIR/EIS schedule. We request that the response to this request be provided to us by May 25, 2007.

PD-22 Please provide us with an update on the status of SDG&E's contract to purchase solar power from Stirling Energy Systems. Is SES meeting its milestones?

**Please submit one set of responses to me and one to Susan Lee at Aspen in San Francisco, in both hard copy and electronic format.** Any questions on this data request should be directed to me at (415) 703-2068.

Sincerely,

Billie C. Blanchard, AICP, PURA V  
Project Manager for Sunrise Powerlink Project  
Energy Division, CEQA Unit
