San Diego, CA. 92123

**Re: Data Request #20 for the SDG&E Sunrise Powerlink Transmission Project,
Application No. 06-08-010**

Dear Mr. O'Beirne:

The California Public Utilities Commission's (CPUC) Energy Division has reviewed the documents and materials that SDG&E has provided including the Proponent's Environmental Assessment (dated August 4, 2006), the Application Supplement Materials (dated September 1, 2006), and SDG&E's Responses to Data Requests No. 1 through 19 (some responses to DR 17 are still pending). During the analysis of the aforementioned materials and in our preparation of EIR/EIS sections, we have identified additional items that require information from SDG&E. Additional data requests may be necessary to address alternatives and other CEQA/NEPA topics. This letter constitutes Data Request No. 20.

ALT-94 Please provide preliminary engineering for a route option called "BCD South Option". This route segment would allow the BCD Alternative to connect with either the Interstate 8 Alternative or the Modified Route D Alternative. We have provided GIS shapefiles for this route to you under separate cover.

We would appreciate your response to this request by October 26, 2007.

Please submit one set of responses to me and one to Susan Lee at Aspen in San Francisco, in both hard copy and electronic format. Any questions on this data request should be directed to me at (415) 703-2068.

Sincerely,

Billie C. Blanchard, AICP, PURA V
Project Manager for Sunrise Powerlink Project
Energy Division, CEQA Unit
