Letter from Josephine E Beckstead and Marion D. Eberhardt dated April 3, 2004

April 3, 2004

California Public Utilities Commission
ATTN: Mr. Mike Rosauer, Project Manager
C/O Aspen Environmental Group
30423 Canwood Street, Suite 215
Agoura Hills, CA 91301

Re: Project Application Number A.03-03-043

Dear Mr. Rosauer:

I am writing you to urge you to please have So. California Edison install any transmission wires UNDERGROUND.

17-1

Please do not let So. Calif. Edison install any towers and/or transmission wires above the ground in Mission Viejo. Also, the existing wires should be put underground. Children play in the parks which have the wires above them; we believe that it can be harmful to them to be exposed to any electric and magnetic fields. Edison customers will pay for the construction anyway, so why does Edison not want to please their customers and the residents and taxpayers that live near the project in Mission Viejo.

17-2

Please do all you can to have the project and existing wires put underground.

Thank you.

Sincerely,

Josephine E. Beckstead
