CPUC

As a 16 year resident of Mission Viejo, and a twenty year Californian, I am interested in fostering a quality of life that motivates thousands of people to migrate to this part of our country each year.

I chose a model city to raise my family in, and I ask that you help accentuate the positive by ruling that SCE bury the subject power lines.

As a homeowner association president, I speak for over 2,000 residents. Please hear my request.

48-1 Thank you for sharing your concerns. Please see General Response GR-3 for information regarding the undergrounding of electrical transmission lines, as well as Appendix 8, which discusses various route options considered by the CPUC.
