DATA REQUEST SET A1503003 ED-SCE-08

To: ENERGY DIVISION
Prepared by: Laura Solorio
Title: Project Manager, Government Lands
Dated: 07/15/2016

Question 05:

SCE's comment on the Draft EIR, Section 4.4.2.1, page 4.4-19, lines 2-3 stated USACE indicated a Section 408 would not be required. Provide a record of communication with USACE supporting SCE's claim.

Response to Question 05:

On January 28, 2016, Walter Davis from the USACE sent an email indicating a 408 permit was not needed. A more formal response was requested, however SCE has not received a letter. The USACE has recently requested information for further review of two locations in the Whittier Narrows Flood Control Basin; the information has been sent. SCE is waiting for a formal letter stating a 408 permit is not required.
