Re: Antelope-Pardee 500kV Transmission Project

I would like to express my opposition to Alternative Route 5 of the above referenced project. I am in the process of building a home in Agua Dulce and I can't believe someone would allow this type of line through our community. Route 4 would be better based on my initial review. I am no expert but I know the fire department could not fight a fire in our community with 200 foot towers. The impact to our community would be horrific. Please help stop Route 5.

D.139-1

Sincerely,

Alan W. Novak

Response to Comment Set C.139: Alan Novak

D.139-1 Thank you for your opinion regarding Alternative 5. We recognize that Alternative 5 would constrain the ability to aggressively fight a wildland fire in the vicinity of the route, and would create additional fire risks to inhabited areas such as Leona Valley and Agua Dulce (see discussion in Section D.5). Your concerns will be shared with the decision-makers who are reviewing the Project at the USDA Forest Service and the CPUC.
