Re: Opposing Alternative 5 New Transmission Lines Along 107th Street, Leona Valley

I have lived on 107th Street for the last 14 years. I raise and train horses to driving carriages on my five-acre ranch. My husband past away in 10/04, my ranch, my horses, and dogs and myself were almost washed away in the 100 year rains of 05. I have rebuilt everything on my ranch. I am also a real caretaker of animals and environment. I always keep water for all the wild life. I am lucky enough to care for the endangered Kangaroo Rats that live on my ranch.

I DO NOT understand why these new lines cannot be pushed farther back into the forest. In listening to your argument on Monday night in Quartz Hill, it seemed apparent that the lives of lots of bushes and a few trees are much more important than the health and well-being of people and animals.

Are you people that put this proposal together from another planet??? Perhaps that's why we were notified so late in the process. You must be inhuman, undemocratic, and un-American. Why do people have to lose their homes and property or be in danger when there are miles and miles of forest that could be used instead?
