Dear John Boccio/Marian Kadota,

My family is strongly opposed to anymore transmission lines and towers running across our properties and near our homes.

I understand that progress has its 'costs' but we moved here to get away from some of the problems associated with progress.

We are already inundated with these monsters; they nearly encircle us.

I feel we've paid our dues already and shouldn't have to pay more with more fire hazards, health risks and unsightliness.

Our forest lands should be left unpolluted for the serenity & pleasure of all people.

Southern California Edison should not be allowed to destroy this philosophy.

C.209-1

2)

Greedy developers have caused much of this urgency for more power lines. Our valleys are overdeveloped now.

C.209-1
cont.

I hope you will give strong consideration and opposition to a plan that will alter our way of life.

Yours Truly
Judy Rankin
