Aspen Group,

Not too happy how you only had so few summaries and information available for such a large crowd at the Quartz Hill information meeting. You told us the purpose of the meeting was to give us information and yet you had none available? Your words and actions do not match up. **I am against this project and will have more to say shortly. I am furious that you did not include our community in your CEQA scoping meetings and when we were informed of the plans you give us such a short time to respond. Then you do not even have the information readily available for us on the night of the meeting.**

This is a request for you to immediately send out information to my home at:
