Subject: Route #2

Hello,

I am a recreational Cabin Owner located at 32870 Bouquet Canyon Road, Cabin No. 5 I am adamantly opposed to the new 500 K transmission line, route No.2, being installed mid slope in clear view of my recreational cabin property and to all the thousands of visitors that frequent the canyon. This canyon is one of the last rural areas located in national forest located between and surrounded by millions of people. Please have them use route no. 5.

C.227-1

Thank You,

Linda Wissmath

Please acknowledge receipt of this protest

Response to Comment Set C.227: Linda Wissmath

C.227-1 As discussed in Draft EIR/EIS Section C.15.7.2 for Alternative 2, views from KOP 7 on Bouquet Canyon Road would be adversely affected as the existing 66-kV towers and conductors would be removed and replaced with new 500-kV towers at a mid-slope location on the east side of Del Sur Ridge, closer to viewers at KOP 7. As such, the Draft EIR/EIS is consistent with your comment.

Thank you for expressing your opinions on Alternative 2 and Alternative 5. Your comment will be shared with the decision-makers who are reviewing the project and alternatives at the USDA Forest Service and the CPUC.
