Subject: Antelope Transmission Project, Segments 2 and 3

Dear Mr. Rahman:

I Would like to inform you and The California Public Utilities Commission about my sincere opposition to Antelope-Pardee 500 KV Transmission Project. This proposed alternative 5 will disturb the Community and the lifestyle of Leona Valley. We do not want to expose our families specially our young children to this high electro-magnetic radiation, it is not appropriate to have these overhead high Voltage running through a community such as ours. My recommendation is to run these power lines away from the communities or to run it in underground lines in the areas close to the communities. I would like to inform you that if this Alternative 5 is chosen I will be joining my community to fight this project. The Community voice was clear in the public meeting on August 28,2006 at George Lane Park, Quartz Hill. In this meeting we all opposed this project specially alternative 5.

C.229-1

C.229-2

C.229-3

Sincerely,

Amjad Hanbali

Response to Comment Set C.229: Amjad Hanbali

C.229-1 Thank you for submitting your option on Alternative 5.

C.229-2 Please see General Response GR-3 for information regarding EMF impacts.

C.229-3 Thank you for your suggestions. Your comments will be shared with the decision-makers who are reviewing the Project and alternatives at the USDA Forest Service and the CPUC.

Please see General Response GR-6 regarding underground construction.
