Subject
Edison Transmission line

As a property owner in Agua Dulce I would appreciate your assistance in extending the time we have to respond to the Draft EIR/EIS on the Edison transmission line from Antelope Valley. I was just notified of this line which will have a severe impact on the quality of life we enjoy in Agua Dulce. I have a real issue with Alternative 5 Route. This line should be put on as much Forest Service land as possible to avoid residential property. The forest service land is more suitable for a transmission line. This is insanity. Inconvenience a few small animals and plants or critically disrupt a way of life for thousand of people! Think!!!

C.51-1

C.51-2

I will fight this. No to Alternative Route 5.

Response to Comment Set C.51: David Baral

- C.51-1 On September 13, the CPUC and the Forest Service formally extended the public review period for the Draft EIR/EIS to October 3, 2006.
- C.51-2 Thank you for submitting your opinion on Alternative 5.
