RE: Edison Transmission line

Forest Service

I am so upset that I cannot think straight. As a member of the Agua Dulce community I am appalled that our own forest service would push to use Alternative 5 for the proposed Edison transmission line from Antelope Valley to Santa Clarita. There is no justification for putting at risk an entire community when virtually barren public forest land is available. Please do not take this personal as I appreciate the great job the forest service does. We are a community of affluent and educated people. I will not stop until Route 5 is eliminated from consideration.
