Subject

Antelope-Pardee Transportation Line Alter. 5

To Julie Halligan, Administrative Law Judge

Jody Noiron, Angeles National Forest supervisor

As a resident of Agua Dulce, Ca and living on Escondido Canyon Road, an area that will be directly impacted by the Southern California, Antelope-Pardee 500-kv Transportation Line Project, Alternative 5, I am requesting an extension of at least 60 days for the comment period on the Draft EIR/EIS project. I understand this project had been requested in June of 2005 and it was as late as August 2006 before the Alternative 5 was added. None of us who will be impacted was notified even then of the Alternative 5. I do not believe that we have sufficient time to totally be heard of the subject and its impact on this community. Please give us time to be heard. Thank you for your time and consideration.

C.61-1

Response to Comment Set C.61: Gaylen and Judy Bartlett

- C.61-1 Please see General Response GR-5 regarding the noticing procedures for an EIR/EIS. Also, please note that the CPUC, as the CEQA Lead Agency, and the USDA Forest Service, as the NEPA Lead Agency, extended the public review period for the Project from 45 days to 60 days.
