- (1) The so-called "scoping process" was flawed & applied without proper noticing.
- (2) The "Public" meeting was not noticed properly & the lead time for discussion is egregiously short, particularly as Alternative #5 description is inadequate & introduced late in the process

D.18-1

- (3) Alternative 5 is UNACCEPTABLE on many levels and will affect my health, noise levels, my view, geology or public services.

D.18-2

This Alternative cannot be taken seriously.
I Recommend NO PROJECT ALTERNATIVE
