My husband & I ARE FLABBERGASTED that we have NEVER been notified of this project AND ALTERATE

D.24-1

#5 will have towers next to our property & impact our view with many more towers. We will be driving under these, around them & listening to the dynamite explosions necessary to get these towers built. I realize that we must save the forest lands, but I also understand that by upgrading the existing towers & pathway that they follow, it not only makes more sense but is less expensive & will not hurt homeowners, wild life in our area & property assessments. Please reconsider this project.

D.24-2

D.24-3

*Please print. Your name, address, and comments become public information and may be released to interested parties if requested.

Please either deposit this sheet at the sign-in table before you leave today, or fold, stamp, and mail. Insert additional sheets if needed. Comments must be typed.

CALLING FOR EIR

Response to Comment Set D.24: Robyn Gerlich

- D.24-1 Please see General Response GR-5 regarding noticing procedures for an EIR/EIS. Note that the Draft EIR/EIS identifies numerous adverse visual effects from the proposed Project or the alternatives.
- D.24-2 There would be no need to use explosives during the construction of Alternative 5. Please see the Draft EIR/EIS Section B.4.5.3 for a description of construction activities that would be associated with Alternative 5.
- D.24-3 Thank you for submitting your opinion. Please also see General Response GR-1 regarding potential effects on property values.
