Email*: FUN4DOGS@AOL.COM

I am a Leona Valley resident & am extremely concerned about the effects of Alternative 5 on my community for these reasons:

Project operation would adversely affect community safety and fire prevention activities.

There would be disruption of groundwater resources and existing residential land uses.

D.27-1

Construction activities would cause a decrease in revenues for agricultural land owners and degrade surface and ground water quality.

While not proven, there is substantial data that would indicate these power lines could cause significant health hazards to residents in close proximity to the lines.

D.27-2

Please either deposit this sheet at the sign-in table before you leave today, or fold, stamp, and mail. Insert additional sheets if needed. Comments must be postmarked by September 18, 2006. Comments may also be faxed to the project hotline at (661) 215-5152 or emailed to antelope-pardee@aspenerg.com.

Response to Comment Set D.27: Cara Callaway

- D.27-1 Thank you for expressing your concerns regarding Alternative 5. For further information on the anticipated impacts associated with water quality, fire hazards, land use and agricultural resources, please refer to the Draft EIR/EIS Sections C.8.10, C.11.10, and C.9.10, respectively.
- D.27-2 Please see General Response GR-3 regarding health concerns associated with EMF.
