I am strongly opposed to the CA Commission's proposed alternative B route to the So Cal Edison proposed Antelope Transmission Project of Segment 1.

I believe that this project will obstruct the view of the surrounding mountains, which I frequently visit. The wildlife in the area would be severely compromised during the construction of these giant power lines.

The proposed lines are directly adjacent to my brother's property, which he bought because of the beautiful view & wildlife & openness. This is an awful proposal for all of the residents & for people who visit to experience the area. Please, don't damage the area.

Response to Comment Set D.31: Lisa Hale

D.31-1 Thank you for expressing your concerns on Alternative 5. For further information on the impacts to biological resources associated with the proposed Project and each of the alternatives, please see the Draft EIR/EIS Sections C.3.5 through C.3.10. Also, note that the Draft EIR/EIS identifies numerous adverse visual effects from the proposed Project or the alternatives.
