

Michael Clayton & Associates

- A** The **existing view** to the north toward the proposed Central East Substation Site, north of BIA Road 51 and west of San Felipe Road. The landscape is predominantly natural in appearance though there are some rural residences nearby.
- B** This image presents a **visual simulation** of the proposed Central East Substation along the hill tops west of San Felipe Road. The substation would be structurally complex and industrial in appearance.

Proposed Project
Key Viewpoint 18
BIA Road 51
