

Michael Clayton & Associates

A **visual simulation** of the SWPL Interstate 8 Alternative from Key Viewpoint 50 on westbound I-8, just east of La Posta Indian Reservation. This view to the northwest captures the I-8 route as it parallels the north side of the freeway. As shown in the simulation above, the structures would be visually prominent and would introduce substantial industrial character into a landscape that is predominantly natural in appearance. The visibility of the structures and conductors would vary depending on lighting conditions and background colors and textures.
