

Michael Clayton & Associates

The **existing view** to the north along McCain Valley Road from KVP 60, at the intersection of McCain Valley Road and Sacatone Overlook Road. The BCD Alternative would parallel McCain Valley Road to the east (right in the image) before spanning the road and crossing the valley floor. Although there is a wood pole utility line in the vicinity of McCain Valley Road (visible near the left edge of the image) and there are several rural residences further to the west in the valley, the landscape along this portion of McCain Valley Road is predominantly natural appearing.
