Damage to roads

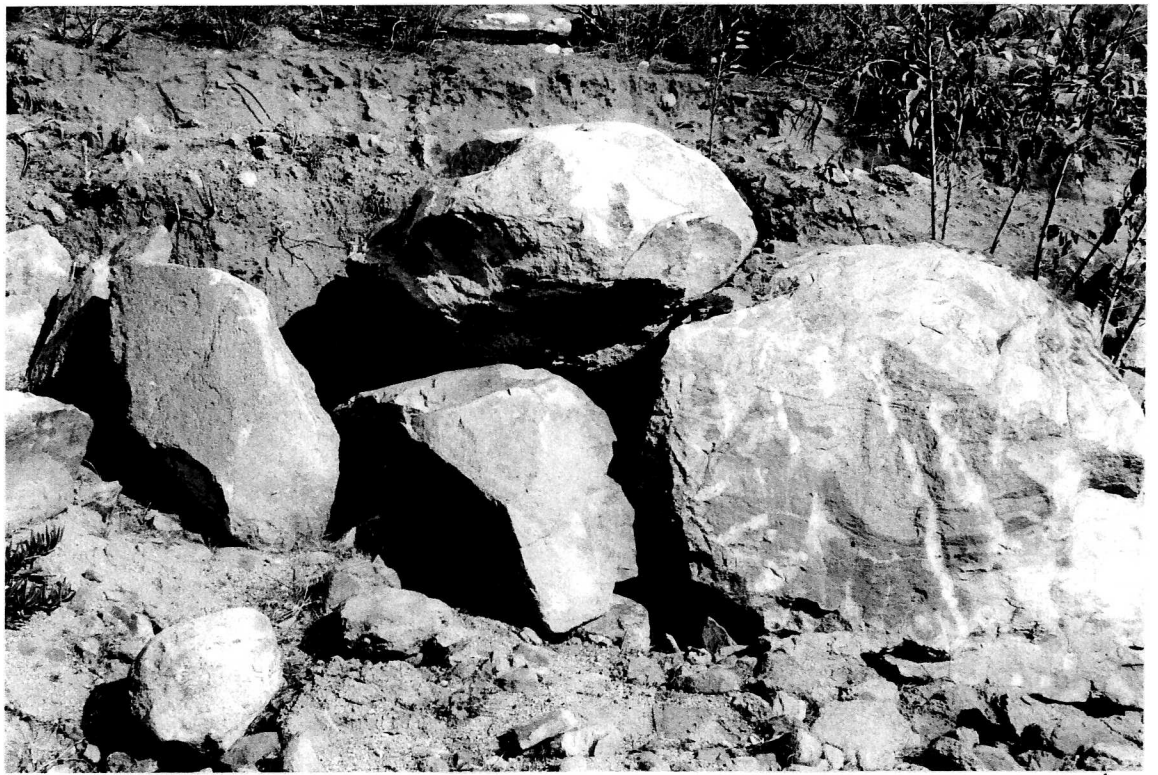

Sandbagged areas to keep water from flowing onto lower property created by bad diverters SDG&E made.

Natural flow of water across their roads from waterfall of mountain.

Road where water goes naturally

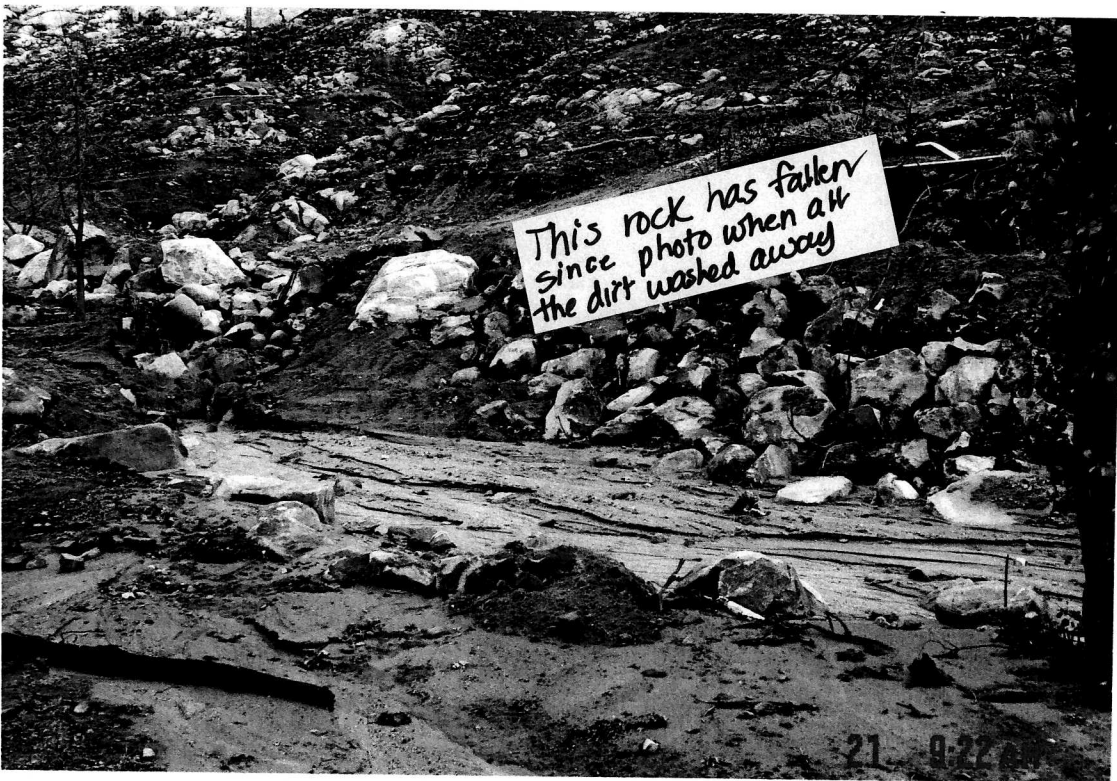

These boulders fell when dirt washed away!
Moved there by south originally from our yard!

Sandbagged when dirt, river was higher to keep
flooding from getting worse!

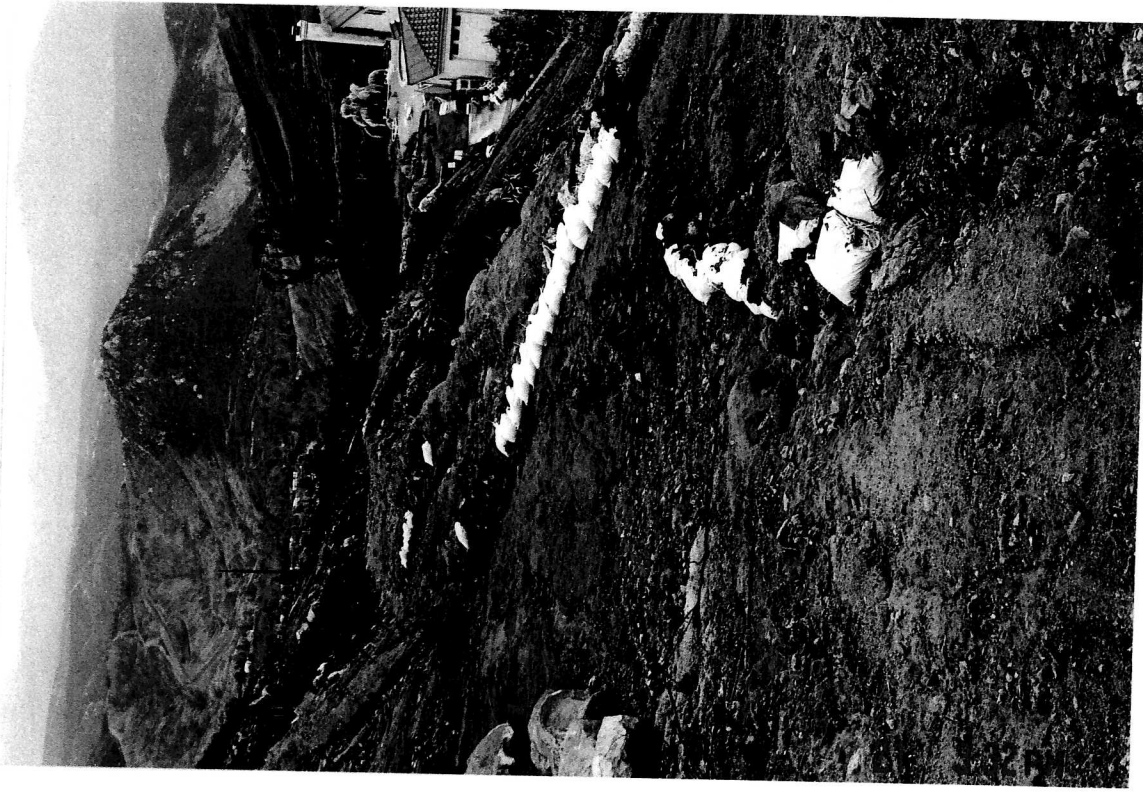

Fallen boulders moved by
SOGGIE and fell when dirt washed
away!

Their attempts to hold up dirt and keep road intact. What if animals or kids were playing here when these rocks fell?!

Sandbagged by us to stop
water flowing onto lower property
created by bad diverter SOB & E
did.

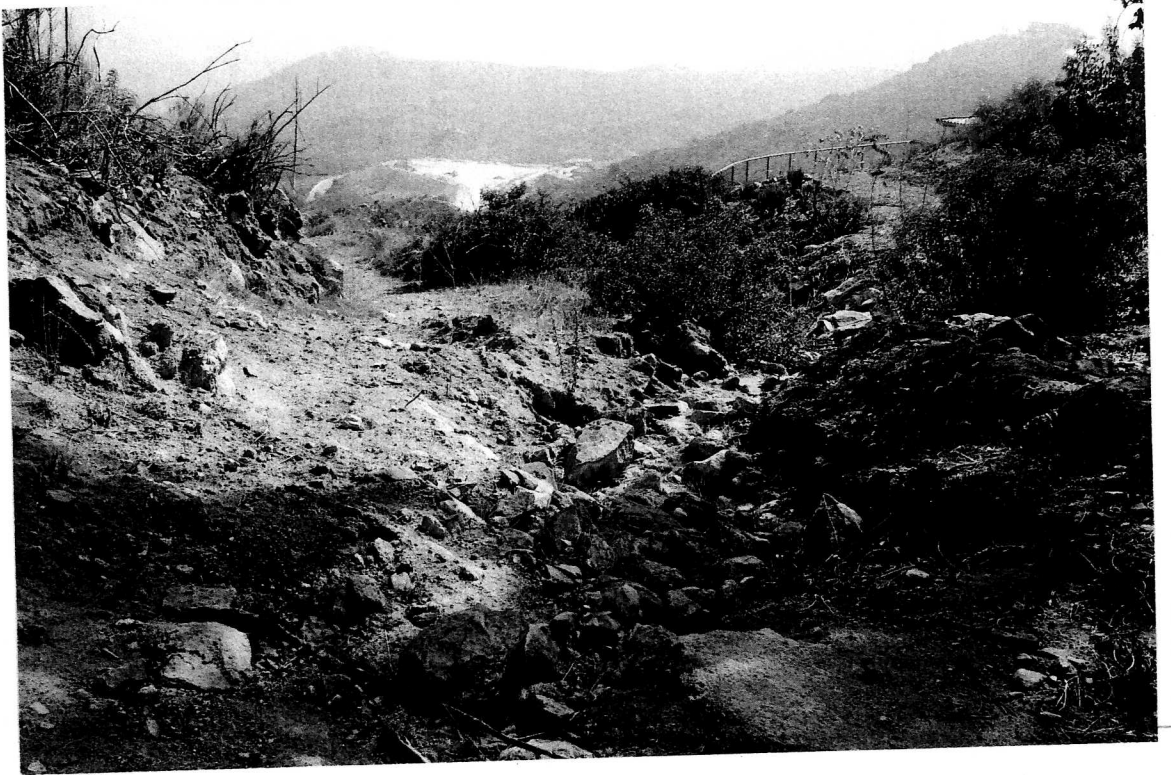

This is a road they did not maintain!

One area they diverted ①
onto our property after first storm
Dirt was level with road and
was originally 3 ft wide. This is
after 1 storm.

Photo of area widening even farther than first ②
damage after 2nd storm. More dirt washed away
This dirt water goes down to Harrison Canyon where
flooding occurs.

Unmaintained road & diverter onto our lower property
