Re: Modified Route D Alternative

Billie Blanchard.

As a resident of San Diego County and member of the Community Planning and Sponsor Group Alliance, I oppose the Sunrise Powerlink Modified Route D Alternative. Significant environmental, public health and safety, and aesthetic concerns arise from this plan.

Southeastern San Diego County is subject to extreme fire conditions and particularly during Santa Ana winds presents a significant danger to all communities to the west.

Additionally, residents of this sparsely populated area do not have the financial or the political means to oppose such ill-advised projects.

Sincerely,
Gregg Miller
