Subject: Minor Project Refinement Request (MPRR) #27 — Cameron Staging Yard — Cleveland National Forest Power Line Replacement Projects (Application No. 12-10-009)

Dear Ms. Reynolds:

On March 1, 2019, and as revised March 8, 2019, San Diego Gas & Electric (SDG&E) submitted Minor Project Refinement Request (MPRR) #27 to the California Public Utilities Commission (CPUC), to modify components of Transmission Line (TL) 6958 and 6923 as described in the MPRR. In summary, SDG&E requested the following project refinements:

- Utilize the baseline Cameron Staging Yard and enlarge it from approximately 0.27 acre to approximately 0.82 acre.

The requested refinement will result in an increase of approximately .52 acre of temporary impacts to disturbed (ruderal/barren) habitat. Minor grading and vegetation removal will be required for yard utilization and fire-prevention maintenance. The refinement area will be accessed via an existing dirt construction-only access road that was approved in Notice to Proceed #19/MPR #22 for TL 6958, and is anticipated to be used for approximately 18 months in support of construction on TL6958 and TL6923.

The CPUC voted on May 26, 2016 to approve the Cleveland National Forest Power Line Replacement Projects (Decision 16-05-038) and a Notice of Determination was submitted to the State Clearinghouse (SCH#2013091070).

The Commission decision approving the Permit to Construct (PTC) authorizes Energy Division staff to approve requests by SDG&E for minor project refinements. The decision states that minor project refinements that may be necessary due to final engineering of the project may be approved so long as such minor project refinements are located within the geographic boundary of the study area of the EIR/EIS and do not, without mitigation, result in a new significant impact or a substantial increase in the severity of a previously identified significant impact based on the criteria used in the EIR/EIS; conflict with any mitigation measure or applicable law or policy; or trigger an additional permit requirement.

This letter documents the CPUC's thorough evaluation of all activities covered in MPRR #27 and that the changes requested in MPRR #27 are allowed pursuant to the Commission decision issuing the PTC. In

Ms. Kirstie Reynolds
March 12, 2019

accordance with the Mitigation Monitoring, Compliance, and Reporting Program, MPRR #27 was reviewed by CPUC to confirm that no new impacts or increase in impact severity would result from the requested activities.

If you have any questions regarding this letter or need additional information, please contact me at 415.703.1966 or lisa.orsaba@cpuc.ca.gov.

Sincerely,

Lisa Orsaba
CPUC Environmental Project Manager
