Subject: Notice to Proceed (NTP) 7– Master Special Use Permit and Permit to Construct Power Line Replacement Projects – Construction Activities Associated with Circuit (C) 78 (Application No. 12-10-009)

Dear Ms. Reynolds:

San Diego Gas & Electric (SDG&E) has requested authorization from the California Public Utilities Commission (CPUC) to commence construction activities associated with Circuit (C) 78 as described in the SDG&E Notice to Proceed (NTP) Request #7 dated July 27, 2017.

The Power Line Replacement Projects were evaluated in accordance with the California Environmental Quality Act (CEQA) and a Permit to Construct (PTC) was issued by the CPUC on June 2, 2016 (Decision D. 16-05-038, dated May 26, 2016). **NTP 7 is granted by CPUC for proposed construction activities based on the following factors:**

- The Final EIR prepared for the Power Line Replacement Projects defined required mitigation measures to be implemented prior to project construction. The relevant mitigation measures for construction activities under this Notice to Proceed are summarized in *Attachment A* and shall be implemented by SDG&E and its designated contractor. SDG&E's compliance with the pre-construction component for each measure is noted in the status table.

NTP #7 also authorizes SDG&E to proceed with activities approved under Minor Project Refinement Request (MPRR) #5, as described in the MPRR request dated May 9, 2017 and as approved by CPUC on August 15, 2017.

The conditions noted below shall be met by SDG&E and its contractors:

- APM TRANS-05: SDG&E shall provide a Traffic Control Plan to the CPUC prior to start of construction.
- MM BIO-29/PHS-3/NOI-3: Blasting activities are not approved at this time. Should blasting activities be required, a blasting plan is required to be reviewed and approved prior to blasting.
