

*Southern California Edison*  
**MESA PTC A.15-03-003**

**DATA REQUEST SET A.15-03-003 ED-SCE-01**

**To:** ENERGY DIVISION  
**Prepared by:** Rey Gonzales  
**Title:** Environmental Project Manager  
**Dated:** 05/22/2015

---

**Question Q.22:**

**Consultation with USACE and RWQCB**

Provide an update on the status of consultation with the U.S. Army Corps of Engineers regarding any request for an Approved Jurisdictional Determination. In addition, provide an update on the status of consultation with the California Regional Water Quality Control Board regarding jurisdictional Waters of the State. This information is needed to evaluate potential impacts to Waters of the U.S and Waters of the State.

**Response to Question Q.22:**

SCE submitted a request for an Approved Jurisdictional Determination on April 23, 2015. We have had initial coordination with the Corps PM but to date she has not had a chance to conduct an in-depth review yet. The Regional Board (as well as CDFW) are only engaged upon the submission of the permit application.

SCE will be submitting an application for 404 NWP 12 mid to late July 2015 and an application for a 401 Water Quality Certification, and 1602 Notification Streambed Alteration in August 2015.
