

Southern California Edison
MESA PTC A.15-03-003

DATA REQUEST SET A1503003 ED-SCE-02

To: ENERGY DIVISION
Prepared by: Daniel Donaldson
Title: Power System Planner
Dated: 07/22/2015

Received Date: 07/17/2015

Question 06:

Please describe what actions SCE would take should the proposed project not be implemented:

- A. Would SCE implement system-level actions and/or other modifications at the Mesa Substation?
- B. If SCE could not pursue other actions to address voltage performance, describe the outcome in terms of reliability.

Response to Question 06:

- A. No
- B. SCE would not be able to meet the project objectives including the following items directly focused on reliability:
- Providing safe and reliable electrical service
 - Address reliability concerns resulting from the recent retirement of the SONGS and the expected OTC shutdowns by December 31, 2020
 - Maintain or improve system reliability within the ENA
 - Comply with all applicable reliability planning criteria required by NERC, WECC, and CAISO
