Pala Mesa Resort 2001 Old Hwy 395 Fallbrook, CA 92028	California Center for the Arts, Escondido 340 N. Escondido Blvd. Escondido, CA 92025	Poway Hampton Inn 14068 Stowe Dr. Poway, CA 92064	Al Bahr Shrine Temple 5440 Kearny Mesa Rd. San Diego, CA 92111

*In conjunction with the North County Community Spotlight event held from 5 to 7 p.m.

The proposed project

SDG&E® and SoCalGas® are proposing to build a new, approximately 47-mile, 36-inch natural gas transmission pipeline from the Rainbow Metering Station near the Riverside County line to Marine Corps Air Station (MCAS) Miramar. SDG&E proposes to locate the new pipeline underground, primarily within existing streets, to minimize costs to our customers and impacts to private property owners and natural resources. We anticipate submitting an application with the California Public Utilities Commission (CPUC) in the fall of 2015.

Learn more

Because you have a property near the proposed route or an alternate route segment(s), we want to provide you an opportunity to learn more about the proposed project early in the process.

More information

Call the toll-free project number at **(844) 873-7417**.

The proposed project will provide safe, reliable and clean natural gas to help meet the region's energy needs.

Le invitamos a un evento de puertas abiertas

Infórmese acerca de un proyecto propuesto para la seguridad y confiabilidad del sistema de gas natural, que se tiene planeado para la región de San Diego.

SDG&E® y SoCalGas® están proponiendo construir una nueva tubería de transmisión de gas natural de aproximadamente 47 millas de longitud y 36 pulgadas de ancho desde la Estación de Medición de Rainbow, cerca de la línea divisoria del condado de Riverside, hasta la Estación Aérea del Cuerpo de Marines (MCAS) de Miramar. SDG&E propone que la nueva tubería se coloque de manera subterránea fundamentalmente dentro de calles existentes, para minimizar los costos a nuestros clientes y las repercusiones a dueños de propiedad privada y los recursos naturales. Tenemos previsto presentar una solicitud ante la Comisión de Servicios Públicos de California (CPUC) en el otoño de 2015.

Infórmese más acerca de la seguridad y confiabilidad del sistema de gas natural

FALLBROOK
