Hello Andrew,

I have attached the memo I believe you are looking for. Please let me know if you need my assistance locating any additional documentation.

This project is being managed out of ESA's San Francisco office by Eric Zigas.

Thank you,

Megan Steer

Dear Ms. Steer,

Thank you very much. What I am most interested in is the attachment to Svindland's supplemental testimony described as a technical memo about desalination plant sizing. And although the document you sent indicates the attachments to the supplemental testimony are available at <http://www.watersupplyproject.org/downloads>, they are not. That URL gets an error message. But I was able to find the attachments at <http://www.watersupplyproject.org/documents>.

And I have a "Supplemental Question": I note that your e-mail indicates a Petaluma address. Is there still a San Francisco office? And where is Eric Zigas based? I worked with Eric while I was at the Monterey Peninsula Water Management District.

Again, thank you.

Sincerely,

Andrew Bell

Subject: Request for a document referenced in the Draft EIR for the MPWSP

Dear Folks,

I'd like to get access to the following document referenced in Chapter 2 of the Draft EIR for the Monterey Peninsula Water Supply Project:

Svindland, Richard C., 2013a. Supplemental Testimony of Richard C. Svindland, Before the Public Utilities Commission of the State of California, Application No. 12-04-019 (Filed April 23, 2012), January 11, 2013.

I tried to locate it via the CPUC website for the project application (A12-04-019), but could find no filings made by Cal-Am in January 2013 that include this document.

I hope you can provide me either the document or a link to it. Thank you.

Andrew Bell
