Subject: DEIR MPWSP comments

Hello,

I am reviewing the MPWSP DEIR and have a few initial comments (more detailed comments will be forthcoming):

Should the project need to utilize State Park lands it is essential to notify the Fort Ord Reuse Authority (FORA) as part of the DHCP for Fort Ord Dunes State Park (FODSP). Any FODSP related easement and or access requests need to occur well in advance of project initiation (easement requests can take up to two+ years to process. TCEs can take 1+ year to execute). FODSP is checker boarded with a host of endangered species – any needed access and or easements that impact these resources, within FODSP, will need to compensate for impacts with mitigation occurring on FODSP lands (on site mitigation).

Can 2-3 water supply lines (stub outs) be provided to the state park?

Locations of MPWSP pump stations, or project appurtenances adjacent to FODSP, will need to consider the FODSP campground location to minimize noise, and or lighting, disruptions to overnight campers and to park visitors.
