**Subject: Southern California Edison's Control-Silver Peak Project (A.21-08-009) –
Application Completeness Letter**

Dear Mr. Balandran:

Southern California Edison's (SCE) Proponent's Environmental Assessment is deemed complete. We are awaiting additional data from SCE pertaining to paleontological resources. Please note that this determination has been made with the understanding that the Energy Division may request additional data, as necessary, to review and analyze the environmental effects of the proposed project in accordance with the requirements of CEQA. The CPUC will begin preparing the Notice of Preparation of an Environmental Impact Report (EIR) and materials for our CEQA scoping meeting.
