Subject: Suncrest SVC / Minor Project Refinement 4 - Amendment #1

Good afternoon,

Attached is a request for an amendment to MPR #4 for the Suncrest SVC Project. The entire area surrounding the water tank was originally part of the approved temporary disturbance area in the NTP, but was inadvertently left out of MPR #4. We are requesting approval for this amendment by 9/16/19.

Please let us know if you have any questions about this submittal.

Thank-you,
Sarah Terrell
