

Sycamore-Peñasquitos 230-kV Transmission Line Project Comment Form

Comments must be postmarked no later than **Monday, Nov. 2, 2015** to be considered in the Final Environmental Impact Report. Comments may be submitted at the Draft EIR public meetings or postmarked and sent to the address below. Please note that your comments (including your personal identifying information) may be made publicly available at any time. If you would like to withhold your personal identifying information, please specify your request on this comment form.

Please Print Clearly. Attach additional sheets or use the back of this sheet if you need more space.

Date: 28 Sept 2015

- ① Alternative 5 focuses on an underground option that would significantly affect Pomerado Rd in Scripps Ranch. Potentially, major impact on existing traffic will exist throughout the construction phase. Pomerado Rd (a designated "Historic 395 Highway") is a 2 lane road that supports traffic from Scripps Ranch, Stonebudge, Poway, + Ranona every day.
- ② Pomerado Rd is an identified / recognized evacuation route during major wildfire events. 2003 and 2007 Wild Fire events made clear the life-saving importance of Pomerado Rd operat; as an escape route for a large population of residents. It is critical that the CPUC give very serious consideration to the impact of construction on Pomerado / Scripps Ranch / Poway / Ranona areas during major wildfire evacuation.
