close to ~~the~~ ^{the intersection} between the black mountain rd and carmel valley rd

I live on ~~and~~ the place where malar Rd is. So we are ^{ortellampara-} at the place where end of segment A is. Currently there is already a very big power tower behind our house. I believe it's a 230kV line, and there is also a smaller power tower besides the 230kV tower which is 160 kV one. ~~we~~ ^{we} constantly we can hear a lot of noises from our bed rooms. And ~~these~~ these noises is very ^{annoying} annoying we have to close the window in order to fall asleep. The noise is worse in summer night because of all the moisture in the air, it's very loud. ~~but we~~ cannot keep window open b we really like to keep the window open in ~~the~~ hot summer night when we sleep, but we cannot do it because of the noise. It's already a very big problem to the neighborhood. Now you are trying to add another 230kV line in addition to the current line, how can we take it? It's going to ~~be~~ be impossible to live there anymore, plus the visual impact, house price will go down for sure.

My husband got stroke 3 years ago, ~~and adding~~ and he had
a clotting in his head. ^{we are (we're)} ~~I am~~ concerned that additional power
line may impact human's health ~~to~~ considering all the
EMF in this area. ~~the more~~ we'll pray everyday
the this won't happen, we just cannot take it !!!
