## NOTICE OF PERMIT WAIVER EFFECTIVENESS

March 9, 2017

**To:** San Diego Gas & Electric Company

**From:** Alison Dettmer, Deputy Director  
Joseph Street, Environmental Scientist

**Subject:** Coastal Development Permit (CDP) Waiver 9-16-1148-W

Please note that CDP Waiver 9-16-1148-W was reported to the California Coastal Commission on March 9, 2017 and became effective as of that date. CDP Waiver 9-16-1148-W allows for:

Installation of (a) a new 230 kV overhead transmission line and a new all-dielectric self-supporting (ADSS) communication cable on four existing steel poles, and (b) one deepwell anode adjacent to an existing metal pipeline running alongside Sorrento Valley Parkway within Los Peñasquitos Canyon, and aerial marker balls on the existing shield wire as required by the Federal Aviation Administration, within an existing SDG&E right-of-way.

At: Los Peñasquitos Canyon, City of San Diego

Please be advised that CDP Waiver 9-16-1148-W only authorizes the development as proposed and described in the Commission's files; any changes to the proposed and described project may require a CDP to account for the changes or a CDP for the entire project. If you have any questions, please contact Joseph Street in the Energy, Ocean Resources and Federal Consistency Division at the address and phone number above.

Sincerely

John Ainsworth  
Executive Director
