**Subject:** Rancho Penasquitos Blvd. Property (Chicarita South)

Brad Carter,

In addition to my previous verbal permission for SDG&E to include my property in their application as staging site, I would like to follow up with this written permission;

I, Jeffery L. Sykes, the property owner of the above referenced property, APN 315-020-58-00, grant SDG&E permission to include all 15.4 acres of this land that are deemed usable in its application for the SX-PQ project before the California Public Utilities Commission (PUC). SDG&E's proposed use of the land is for a temporary staging site for the project. SDG&E will conduct non-invasive environmental and cultural surveys of the site for its application with the PUC. Once the project is approved by the PUC and provided the referenced land is still vacant and available, SDG&E and I may enter into negotiations for the use of the site. I understand at this time there is no commitment on my part to hold the site for SDG&E's use or to reach an agreement for its use at the time SDG&E would like to use it.

Jeffery L Sykes  
Owner
