A12-08-001

Disposition of application for rehearing of Decision 13-10-052 (Decision) filed by Southern California Edison Company (SCE). The proceeding involved SCE's request for approval of its 2013 Energy Resource Recovery Account forecast. SCE requested recovery of \$4.389 billion in electric energy procurement costs. The Decision approved \$3.797 billion, representing SCE's request less \$271 million in Greenhouse Gas (GHG) cap-and-trade costs and \$321 million in incremental procurement costs for the San Onofre Nuclear Generating Station (net SONGS costs). GHG and net SONGS costs were removed from the 2013 revenue requirement forecast because cost recovery will be decided in separate proceedings. The Decision found that net SONGS costs should be removed from any SCE Trigger application calculation for the same reason.
