**Subject: PG&E Response to Manning A.24-060017 CPUC Data Request 4 (Revised)**

PG&E has received the attached California Public Utilities Commission's (CPUC) Data Request 4 (Revised) regarding Updated Construction Measures and Mitigation Measures for the Manning 500/230kV Substation Project (Application 24-06-017). Pursuant to this data request, PG&E affirms the following:

1. PG&E agrees to implement the "Updated Measures" as provided in Attachment 1 during construction of PG&E's transmission line facilities necessary to interconnect LS Power's Manning 500/230 kV Substation Project.
2. PG&E previously agreed to implement the "Measures without Updates" in the March 2, 2025, response to CPUC Data Request 2.

Sincerely,

A handwritten signature in black ink, appearing to read 'Doug M. Edwards', is positioned below the 'Sincerely,' text.

Doug Edwards
