This image presents the **Existing View** to the southwest from **KOP 6** on westbound State Route 79 (Winchester Road), approximately 0.23 mile northwest of the intersection with Max Gillis Boulevard. This view captures the open, undeveloped landscape that surrounds this intersection (though residential/suburban development is gradually encroaching from all directions). Views are generally open and panoramic. An existing wood-pole utility line is noticeably prominent in the primary cone of vision of travelers on SR 79.
