RE: Edison Transmission line
Thank you for the response and thank you for all your hard work. I will me
be short. The negative social, economical and environmental impact to
alternative route 5 of the Antelope-Pardee transmission line on Agua Dulce
will be huge. Please allow routes through the forest which will not impact
the thousands of residents of Agua Dulce and the surrounding communities.
All the best.

Subject: Edison Transmission line
Hello Mr. Baral
I left you a voice mail at your office and attempted to call you several
times throughout the day. Jody has been busy with the wildfire off Interstate
5 and asked me to call you. Because of the fire she may not have time to
contact you - for quite some time. I am in the office all day tomorrow if
you would like to call me. I will also try calling you again.
