Leona Valley, Calif. 93551-0774

This letter is being typed by me Patti Cutlip and is being compiled
By both of our input on this very serious matter. Dated September 13,2006

We want to express out sincere concern over the proposed
Antelope-Pardee 500-kv Transmission Project.

I Jack Cutlip am afflicted with Parkinsons Disease and don't want
to have these high powered lines anywhere near our home, community
that we love and have appreciated for many years. We live in Leona Valley
not for just its beauty but also for the choice of being away from Smog
and Contaminated City living. PLEASE KEEP THE HIGH POWERED
LINES OUT OF LEONA VALLEY, keep our community free from this
project, there are plenty of places to put them without interfering with
our Leona Valley Residential area, let our community maintain its
most valuable resource QUALITY OF LIFE. This project will do nothing
but destroy what so many have worked to maintain here.

C.89-1
