Dear Mr. Boccio and Ms. Kadota,

We are writing in response to the Draft EIR/EIS on the proposed Antelope-Pardee 500kV Transmission Project. After reviewing the alternatives provided by the Project website, we would like to register our protest specifically at Alternative 5: Antelope-Pardee Sierra-Pelona Re-Route.

While we appreciate Southern California Edison's need for growth, as residents of Anthony Road we feel that some of the other alternatives would appear to have a less negative impact on the area. DWP powerlines (the Victorville-Rinaldi line) already exist along Anthony Road and negatively affect both residents and property values. It would be unfair to add more power lines along this route and would definitely generate vigorous protest by residents and community members.

Thank you for your attention.

Sincerely,

Roger & Karen Blackwell
