**Subject:** Leona Valley High tension transmission line

I am a resident of beautiful, rural, Leona Valley. My family and I moved from Palmdale to be a part of this lifestyle. We strongly oppose the addition of your high tension transmission lines through not only a populated area, but a beautiful area as well. It is only common sense that this type of line poses a health threat to our families and animals, and we are living here for the clean air and healthy environment.

C.22-1

My family and I do not agree with your proposal, and I know I speak for other members in our community when I say please find another area in which to cross your transmission lines.
