Telephone Number\*: 661 268-1046  
Email\*: jpick@waveisp.net

I can't believe any person or government agency (i.e. CPUC/US Forest Service) would consider Alternate Route 5 as a possibility for Edison to build a new high tension transmission line, instead of the Westluc forest service land. I question the ethics and legality how this decision process has come about, since the property owners affected by your alternate Route 5 were not properly personally notified about the impending project. I thought I was living in the United States. This is an underhanded and unAmerican way to take what individuals have worked for- their HOMES. Put the line ~~through~~ through the forest service land. No person would object to this except the US Forest Service.

\*Please print. Your name, address, and comments become public information and may be released to interested parties if requested.

Please either deposit this sheet at the sign-in table before you leave today, or fold, stamp, and mail. Insert additional sheets if needed. Comments must be postmarked by September 18, 2006. Comments may also be faxed to the project hotline at (661) 215-5152 or emailed to antelope-pardee@aspeng.com.
