Subject

Antelope Valley Pardee Transmission Line

Please remember that your job is to protect the forest. Continue to do so, but not at the expense of communities like Agua Dulce. Especially when barren land, inhabited by few and used by little, is available. This is not personal, this is rational. Alternative Route 5 for the planned Antelope Valley Pardee transmission line should be scraped. Put the line through a community or a uninhabited desert? Am I missing something? I ride dual sport motorcycles through the forest land where you oppose the line. Nothing on that land justifies disrupting the health and well being of an entire community. It is not Yosemite!!!
