

J. RESPONSES TO COMMENTS

The Draft Supplemental Environmental Impact Report (SEIR) was circulated for public review from December 6, 1999, through January 20, 2000. This section contains copies of all of the written comments received during the public review period, as well as a transcript of verbal comments made at a public participation hearing conducted the Administrative Law Judge in Huntington Beach on January 21, 2000. Written comments received by public agencies are presented first, followed by written comments from local organizations and citizens. Written comments were received via U.S. mail, overnight delivery, facsimile (fax), and electronic mail (e-mail). Identifying numbers have been added to the margins of the comments by the SEIR preparers. Verbal comments received at the public participation hearing are presented after the written comments.

Following each set of comments are numbered responses to each comment. In some cases, the responses contain references to information presented in the SEIR and, in some other cases, a response makes reference to a previous response in order to avoid unnecessary duplication. In some instances, comments have prompted minor revisions to the text of the SEIR. The responses to such comments indicate whether a change to text of the SEIR has been made and the locations where all substantive changes have been made to the various sections of the SEIR are indicated by a vertical line in the right margin of each revised page.

Each of the agencies, organizations, and individuals that submitted written comments are listed in Table J-1 below. A number has been assigned to each set of written comments as part of the numbering system for identifying individual comments.
